

List of conditions licensed by the HFEA up to date from December 2007. This is not a complete list of all conditions licensed by the HFEA. Some conditions have been removed to protect the identity of patients with very rare conditions. There have also been conditions licensed since the date that this list was produced.

CONDITIONS LICENSED

Adrenoleukodystrophy

Agammaglobulinaemia

Alpers Syndrome

Early Onset Alzheimers Disease

Anderson Fabry Disease

Androgen Insensitivity Syndrome

Autosomal recessive non-syndromic sensorineural deafness

Beckers Muscular Dystrophy

Beta Hydroxyisobutyryl CoA Hydrolase Deficiency (Methacrylic Aciduria)

Beta Thalassaemia

Breast cancer: BRAC 1 (for named patients)

Cardiac Valvular Dysplasia

Charcot Marie Tooth Disease

Choroideraemia

Chronic Granulomatous Disease

Coffin-Lowry Syndrome

Congenital Adrenal Hyperplasia

Congenital Fibrosis of the Extraocular Muscles

Crouzon Syndrome

Cystic Fibrosis

Duchenne Muscular Dystrophy

Ectodermal Dysplasia

Exclusions testing for Huntington's Disease (Huntington's Chorea)

Familial Adenomatous polyposis coli (FAP)

Fragile X Syndrome

Gonadal mosaicism

Haemophilia A

Haemophilia B

Homozygous familial hypercholesterolaemia

Hunters Syndrome
Huntington's Disease (Huntington's Chorea)
Hypogammaglobulinaemia
Incontinentia Pigmenti
Juvenile Retinoschisis
Lenz syndrome
Lesch Nyan Syndrome
Li-Fraumeni Syndrome
Lymphoproliferative Syndrome
Marfan Syndrome
Muscular Dystrophy
Myotonic Dystrophy
Myotublar myopathy
Myotubular atrophy
Neurofibromatosis type I
Niemann Pick Disease Type C
Neurofibromatosis type II
Ornithine carbamoyl transferase (OTC) Deficiency
Osteopathia Striata with Cranial Sclerosis (OSCS)
Otopalatodigital syndrome type 2
Partial Lipodystrophy, Familial, Type 2
Pelizaeus Merzbacher Disease
Prader Willi Syndrome
Severe Combined Immune Deficiency
Sickle Cell Anaemia
Spinal Muscular Atrophy
Treacher Collins Syndrome
Von Hippel Lindau (VHL) Syndrome
Wiscott-Aldrich Syndrome
X-linked Hereditary Motor and Sensory Neuropathies
X-linked hydrocephalus
X-linked Immuno-deficiencies
X-linked Mental Retardation
X-linked spastic paraplegia

- The list may not include all conditions licensed since rare conditions, the inclusion of which could lead to the identification of patients concerned, have been removed to protect the identity of those patients.
- A centre will consider every patient individually. If a centre is licensed to perform a test for a certain condition, it does not mean that the centre would carry out the test for every patient that may request it.
