

Suggested format for feedback on the HFEA Standards for Assisted Conception Centres

Centres are asked to consider:

- Do the Standards clearly indicate what centres are expected to do?
- Where might further guidance and/or templates be helpful?
- Any other comments on the content of the Standards (bearing in mind we can not change the requirements of the Tissue Directive)
- Centres that are ISO accredited or working towards ISO accreditation are asked specifically to comment on the comparability of the Standards and ISO requirements. Does having ISO requirements in place make it much easier to address the Standards?

Please submit comments on specific sections of the Standards using the following format:

Centre number	Standards paragraph number e.g. 4.1.1	Type of comment – please enter C for lack of clarity, G for more guidance needed, or A for any other comment	Comments

Please address comments to:

standards@hfea.gov.uk

or in writing to:
