

## Scientific and Clinical Advances Advisory Committee

Wednesday 22 October 2014  
2.00pm – 4.30pm

### Matters arising

Matters arising from meeting held on 6 June 2014				
Date and item	Action	Responsibility	Due date	Progress to date
20/06/2012 7.6	It was agreed that SNP array usage may result in the generation of more information about additional diseases, traits and predispositions, and therefore the production and disclosure of this information must be considered. It was agreed that the ethical implications should be considered by the Authority's Ethics and Law Advisory Committee.	Anna Rajakumar	January 2015	A paper was presented to the Authority's Ethics and Standards Committee (ESC) outlining developments to karyomapping, in April 2014. A more extensive review of the literature was presented to ESC in June 2014.  This is now due to be followed up with ESC once further clarification of legal advice is received. The paper is scheduled to go to ESC in January 2015.
14/12/2011 4.7 and 29/02/2012 2.4 and 20/06/2012 8.3	Draft a guidance document to be developed with the Home Office, Department of Health and the Academy of Medical Sciences.	Anna Rajakumar	Ongoing	The document has been finalised and the Home Office is now in the process of submitting and publishing it.
05/02/2014 3.2	SCAAC agreed on the areas of expertise that are required on the panel. New recruits will be added to the membership.	Anna Rajakumar	October 2014	The areas of missing expertise have been identified.  A new member of the Committee is joining in October 2014 and up to two further members will be invited for 2015.
